THE PREGNANCY
CARE CENTER

More about our Facility and Request for Services

- Our facility is a nonprofit, faith-based, charitable organization. All our services are free of charge, and most of the services are provided by volunteers. All our medical services, presently ultrasounds, are provided by licensed medical professionals.
- The urine pregnancy test is 97% to 99% accurate; however, a medical provider must confirm your test results. You should follow up with a licensed medical provider whether the test is positive or negative.
- Our advocates/mentors are lay people, not necessarily licensed or degreed personnel. The lay counseling/mentoring obtained here is not intended as a substitute for professional counseling.
- All information is kept confidential, except if required to be released by law, as is outlined in The Pregnancy Care Center's Notice of Privacy Practices.
- For our client's privacy, our center and its agents do not consent to any recording, taping, photographing, or videotaping on the premises without expressed specific permission.
- Our center does not benefit financially from your decision regarding your pregnancy. We do not perform or refer for abortion, but we do provide information and services so that you are equipped to make an informed choice about your pregnancy.
- Our center takes a holistic approach, which means we help you address your physical, emotional, and spiritual health; this is accomplished through pregnancy testing, ultrasounds, a wide variety of Bright Course educational videos, mentoring, and referrals to outside agencies.
- The Bright Course educational videos offered are voluntary, and you may refuse to watch any or all videos at any time.
- Our center offers these services to our clients throughout their pregnancy and up to 12 months after the birth of their baby.

I have read, understood and agree to the above and hereby request The Pregnancy Care Center to render services for my care.
